

Problem	Sketch and Work	Notes and Questions
<p><i>Hanging Pictures:</i> I have 20 pictures that I want to hang in 4 equal rows on the wall in our new apartment. <b>How many pictures would there be in each row?</b></p> 		
<p><i>Designing a Patio:</i> I have 180 square foot pavers that I want to use for a rectangular patio. I want one side of the patio to be 15 feet long. <b>How wide can the patio be?</b></p> 		
<p><i>Planning Meals:</i> I need to be able to make 28 different meals by pairing the four main courses I know how to make with different sides. <b>How many sides will I need to learn to prepare?</b></p>
